Timber

Roll up your sleeves and start chopping! The pressure's on at the old logging camp. Trees need to be toppled, but the boss is clocking your every move. Clear the forest before the end of your shift and you could get a pat on the back and a big bonus. Miss your quota and the boss is sure to pass along a head-pounding surprise that just might leave you lumbering!

BALLY MIDWAY's newest game takes you to the great outdoors on an entertaining 3-dimensional adventure. Players take charge of their own team of lumberjacks. . . a colorful crew of slightly wacky workers who go out on a limb to score points with the Boss. Angry forest creatures. . . toppling trees. . . and a rustic touch of unexpected slapstick all add to the fun! Coming soon to your neck of the woods!

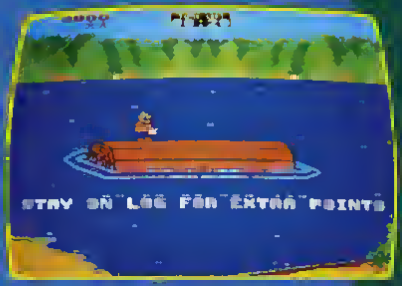
STUMP THE TREES BEFORE THEY STUMP YOU!



Brawn and brute force are the tools of your trade . . with a little help from your 4-way joystick! You're about to become a backwoods lumberjack. And your mission is to muscle your way through the forest by chopping down trees before time runs out!

There's a job to be done at the logging camp . . . and you've got a nasty boss who will make sure it's done right. Maneuver your logger around the trees and start chopping. But be sure to make a run for it when the trees timber . . . or you'll be flattened. To add excitement to your task, an angry bear will toss bee hives your way that could put a sting in your plans. Steer clear of calamaties to finish the job on time and your boss will reward you with a bonus. . . extra points for time unused!

Nobody said being a lumberjack was going to be easy! Slack off the job and you could be up a tree! That's why it's important to check your time on the upper right section of the screen. But be careful. The Boss doesn't like clockwatchers who can't meet their quota. In fact, he gets so angry he'll blow the whistle. . .turn you upside down . . .and give you a pounding headache. Each time you get stung by bees or fail to meet your quota you'll lose one logger. And none of this will look good on your work record!

Once you get the hang of the job, branch out! Take on another player and compete against each other in a vigorous showdown of chopping power. Use your "shouldering" techniques to topple trees down on opponents and create an on-screen obstacle course. Make it to the bonus round without a scratch and take on a new challenge. Now all you have to do is balance atop a floating log and you'll log enough points to win the game and really impress the boss!

Operator Selectable Game Setting & Diagnostic Package

- Multiple Coin/Credit Options
- Multiple Bonus Level Options
- Multiple Difficulty Levels
- Rom/Ram Self-Testing
- Selectable # of Bases
- Full Bookkeeping Record
